JDW:Further ref your 4/12/75:O'Toole duplicate. Two reporters who got freebees each gave me a copy.Whether or not O'Toole had collaborators in writing, Penthouse made a major thing of it and told me last July or August they were. I've not been able to read, either, but if you have not, I'd appreciate a citation to each reference to the 1/27/64 transcript.... I'd appreciate the 1st two CQ WG volumes, thanks...Could not get GL on TV. Not because storm took areials, for while poorly, set still works. Simply no time. Glad to get text, Used at U Ad speech...Besides detail obligations, like packaging and mailing, too many other things have kept too budy for much, but I have the feeling that these matters are very rapidly getting even more Byzantine. Were a master hand manipulating, which I do not think, it could do no better...Had UPI meeting today. Not with Dilman, who was with Der K, who I also did not hear....BudFand Lane have formed an alliance and are seeking and getting considerable attention. One of the evil consequences not recognized, I mbelieve, is that withe people now willing to talk, they ll go to the publicity seekers who not only can easily and unscrupulously misuse but will go for a fink....Best, HW 4/17.75
